

MEGATRANS

Mega SAFE-DRIVE
Sistema Inteligente de Conducción Segura

Safe Drive Solution

www.megatrans.com.ar

www.megatrans.com.ar

• **Safe driving software.**

• **Intelligent system to prevent road accidents.** Detects risks while driving and **alerts through audible alerts at the time.**

Incorporates those data to the Big Data for analysis and **decision making.**

MEGATRANS

Change in
the behaviour.

Mega Safe Drive generates a
change in driving behaviour
thanks to its warnings and calls
of attention.

Is an essential tool to **detect
irregularities.**

MEGATRANS

www.megatrans.com.ar

Camera inside the cabin.

The intelligent camera prevents collision with pedestrians, cyclists and other vehicles.

With only 2 seconds anticipation in cabin reduces 40% road accidents.

www.megatrans.com.ar

Buzzer activation.

The buzzer is activated when there is **speed excess**, close driving to the front vehicle, change of lane without turning, **higher speed than the road signs**, and **impact danger** with moving or motionless obstacles.

www.megatrans.com.ar

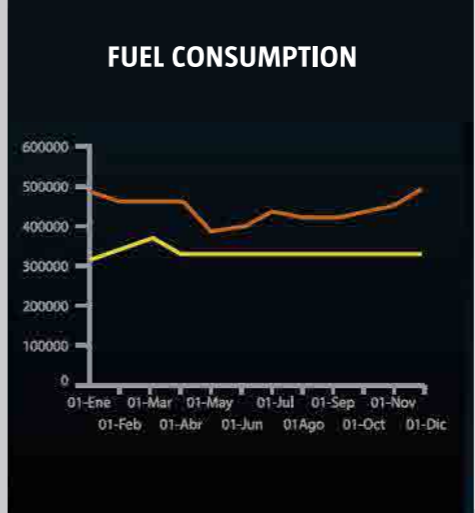

Interface CAN BUS.

This interface functioning with **Big Data software** allow loading the vehicle in the system and obtain **precise information at the time of the registry.**

RANKING OF TRAVELLED KM BY DRIVERS

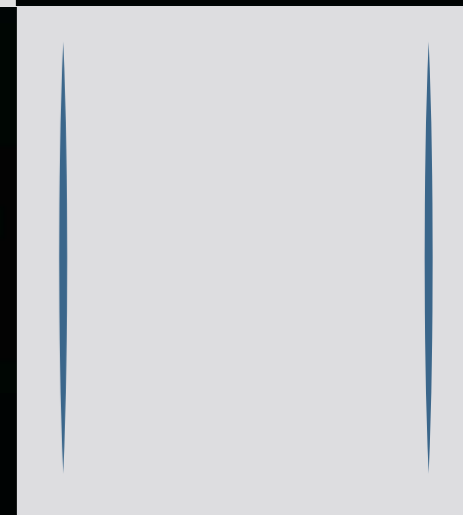

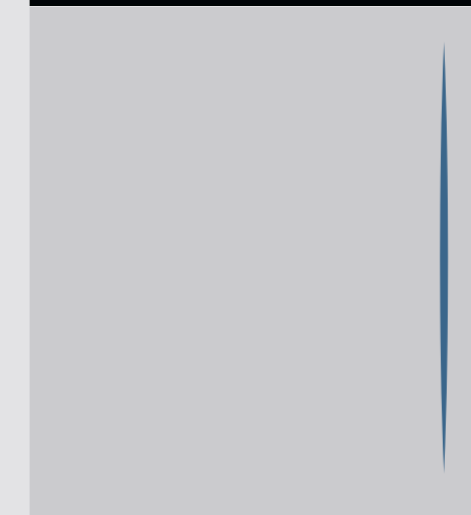

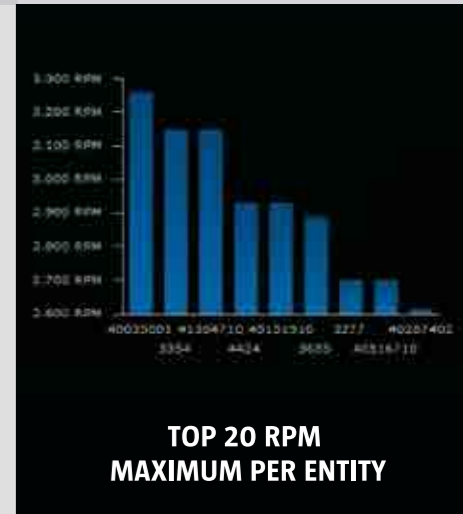

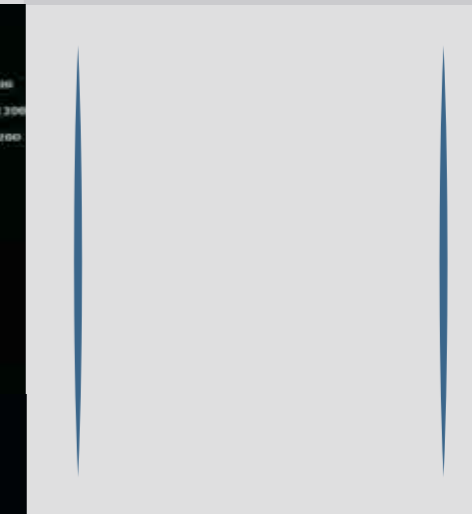

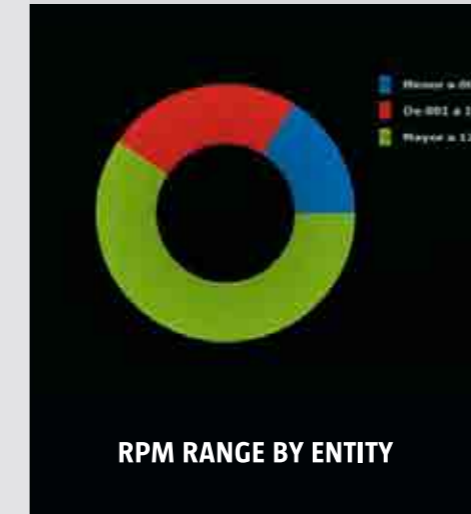

Driver	KM Travelled
Massa, Gustavo Adrian	25.456 km
Salvador, Pedro	12.344 km
Casasnovas, Ricardo	51.789 km
Santa María, Ignacio	7.344 km
Perez, Sebastián	93.677 km
Sanchez, Francisco Pablo	70.983 km
Paladone, Hernán	34.211 km
Gusfraba, Leonardo Ariel	5.006 km
Soté, Jorge Daniel	67.089 km

www.megatrans.com.ar

Precise information for corrective and preventive actions.

Through an **incorporated odometer** knows the distance that your unit has traveled. The software also allows to contrast **real RPM vs standard RPM**, as well as fuel consumption and **oil pressure level**, and **speed reports by zones**.
